9 Annual Report of Surface Mineral Substances Extraction (Consolidated Materials and Peat Moss)

Annual Report of Surface Mineral Substances Extraction (Consolidated Materials and Peat Moss)

Here is the procedure for the submission of an annual report of surface mineral substances extraction (consolidated materials and peat moss) in GESTIM.

To make the payment, the user can:

- Use a credit card
- Use the money already deposited in his account by using the *Charge to the account* function if the available funds are sufficient to fully pay the transaction. (Note: to use the account of a third party, you must be authorized by a delegation of management.)

It is essential to be a privilege member of GESTIM to complete this process.

Please note that a penalty for late submission is imposed to any extraction report submitted late. The amount of that penalty doubles after 15 or more days late.

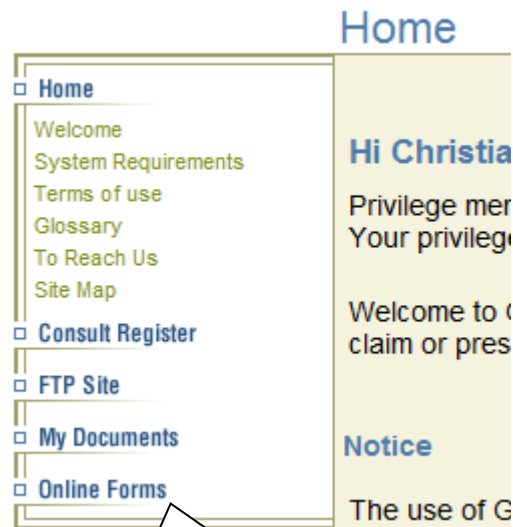

If you need assistance, please contact the mines service center at :

The screenshot shows the 'Online Forms' page. The left navigation menu is expanded to show 'Declaration' under 'Online Forms'. The main content area displays the title 'Declaration' and a list of links: 'Declaration of the Discovery of Triuranium Octoxide', 'Work Declaration Form', 'Annual Report of Work', 'Annual Declaration Indebted (Unconsolidated Materials)', and 'Annual Declaration Indebted (Consolidated and Peat Moss)'. The 'Annual Declaration Indebted (Consolidated and Peat Moss)' link is highlighted. A callout box points to this link with the text: '3) Click the title of the form to open its description.' Below the links is a large box containing a question mark icon and the text: 'Description: This extraction declaration form is used for declaring the volume of surface mineral substances extracted under a mining right and for calculating the royalties. It is intended for operators who are not exempt from paying royalties. It is compulsory to declare the volume of mineral substances extracted annually. This form is used for all types of mineral substances come from peat bogs and quarries where the materials are usually taken by drilling or dynamiting rock.' At the bottom of this box is an 'Open...' button. A callout box points to this button with the text: '4) Click on the 'Open' button to access the form.'
